

Molecular Pathology FOCUS ON series webinar 1 of 4:

Choosing the right tissue

Friday 16th February 2024, 12:00-13:00

The selection of suitable tissue for testing is a key part of analysing formalin fixed paraffin embedded tissue for molecular changes. This webinar will cover:

- Recommended sample preparation for DNA & RNA panels
- Assessing tumour cellularity and tumour content
- Challenges

This webinar will be presented by Dr Anca Oniscu (Consultant Pathologist – Stockholm, Sweden) and will include a live Question and Answer session at the end.

Register for the free webinar at:

<https://attendee.gotowebinar.com/register/8120723939213218653>

Registered participants will have priority access to the webinar for one month (if you are unable to join us on the 23rd Jan).
