

LIVE Webinar - lessons learned from the 2020 ovarian and prostate cancer EQA

On **Wednesday 19th May 2021 at 13:00– 14:00 BST (12:00 GMT)** Professor Sandi Deans (GenQA) and Dr Simon Patton (EMQN) will provide insight in to the challenges faced by laboratories when analysing samples for germline and somatic variants in patients with ovarian and prostate cancer.

They will share their experience on how to ensure that you are able to provide robust high quality testing, accurate genotyping and appropriate clinical reporting.

Professor Sandi Deans (GenQA)

Dr Simon Patton (EMQN)

The webinar is organised and funded by AstraZeneca.
